

RIPets was established in 1997 to provide personal, compassionate and dignified pet cremation services.

Over the past 10 years RIPets has built up a trusted and loyal relationship with over 60 veterinary practices and pet owners throughout the greater Cape Town Peninsula.

On receiving a call, our RIPets vehicle, manned by dedicated and professional staff, carry out collections from the various vet's surgeries or directly from your home.

RIPets gives you peace of mind to be assured that your pet will be laid to rest in a dignified manner.
